The banner features the Unstop Pro logo on the left. In the center, a man wearing a yellow crown and a white t-shirt is pointing upwards with both hands. To his left, a pink box says '50+ Courses'. To his right, a blue box says '15% Off Mentorship' and a green box says '100+ Interview prep'. Below the man, an orange box says 'And more...'. On the far right, the 'Unstop TRIBE' logo is visible. On the left side of the banner, the text 'Now at ₹999/mo' is displayed in large blue font, with a purple arrow button below it that says 'Go Pro Now'.

Details

About the Opportunity:

We're looking for a brilliant and curious fresher from IIT to join our AI Engineering team. You'll work on designing intelligent systems that power decision-making, automate operations, and enhance user experience across BharatPe's product suite

Responsibilities of the Candidate:

- Collaborate with cross-functional teams to identify AI use cases in payments, lending, and fraud detection
- Build, train, and evaluate machine learning models using structured and unstructured data
- Develop prototypes and proof-of-concepts for AI-driven features and tools
- Assist in deploying models into production using scalable APIs and cloud infrastructure
- Continuously monitor model performance and retrain as needed
- Document workflows, experiments, and learnings for internal knowledge sharing

Requirements:

- B.Tech/M.Tech in Computer Science, Electrical Engineering, or related field from IIT
- Strong foundation in data structures, algorithms, and mathematics
- Hands-on experience with Python and ML libraries (e.g., Scikit-learn, TensorFlow, PyTorch)
- Exposure to NLP, computer vision, or recommendation systems through coursework or projects

- Familiarity with Git, SQL, and basic cloud concepts (AWS/GCP preferred)
- Excellent problem-solving and communication skills
- Passion for fintech and eagerness to learn in a fast-paced environment

If an employer asks you to pay any kind of fee, please notify us immediately. Unstop does not charge any fee from the applicants and we do not allow other companies also to do so.
